PERSONAL PROFILE

An IT professional with 4 and a half years' experience working with small to medium businesses and managed service providers. Experienced in helping customers over the phone and in person resolve all types of IT queries: from installations to hardware and from networks to service requests. Well-spoken and polite, with a high interest in all forms of computers and looking for a position to develop and harness my skills. Currently seeking an opportunity with a dynamic and growing company, where I can progress and help improve many aspects of the IT systems of my workplace. I am currently working toward getting a MCSA and completing my CCNA qualification.

INTERESTS

I am very interested in Networking and Programming/Scripting. I spend a lot of my spare time working on various mini projects to try make myself more efficient in the workplace. I am also working on creating a website for the purpose of teaching myself HTML, CSS, JavaScript and PHP.
